

Revision #01 for Wix plugin

1. ~~Price calculation should work within the interface & we need total price on top.~~
2. ~~We need a finish button.~~
3. ~~After finalizing the selection, we need to redirect clients to fill a contact form with design summary.~~
4. Functions are not working on mobile yet.
5. ~~We need to set a base price for the apartment.~~
6. ~~Selection buttons are too big upon comparing with base image and let's remove the shadows on them.~~
7. ~~Upon writing option names, if the letters are long, it exceeds out of button limits.~~
8. ~~Fade effect for changing images.~~
9. ~~Text options includes duplicate "option names" let's remove unnecessary one.~~
10. Name of the room should appear next to toggle icons on top right.
11. ~~Arrow icons can be thinner.~~ ✗
12. ~~Constraints can only be linked between 2 elements for now, but we may need to link more than 3 elements.~~ Can be done by 2 or 3
13. ~~Maybe we can extend and thinner line on top to make interface simpler.~~ ✗
14. ~~We can add hover effect for showing details in zoom.~~
15. ~~We may add extra image function for same rooms. (In order to add different angles.~~ = we'll do that later

image rescaled,
buttons like on
Apple watch

can be done by
2 constraints
